My experience with Universal Pride Interiors for facelift of our 3200 sq ft house was very satisfying. Universal Pride Interiors is a young team led by Nitin Mehandia who is polite and transparent in dealing. He respects and integrates your views in the work plan and believes in delivering value for money. With such little exposure to the outside world they are doing a wonderful job in the field of interior designing. Their enthusiasm and energy will propel them further in their profession further to optimize cost and time. Overall very good experience!
